

Taking care of the society in which the Evaco group operates is a major issue for us. Evaco Ltd created the Evaco Foundation in September 2020 to give a concrete and positive dimension to its social commitment. During its first 2 years of existence, the Foundation has acted on the following sectors:

- Sports initiatives

The company supports local sports teams in terms of equipment and logistical support, providing them with financial and material support for their sports events.

- Educational initiatives

The charity organization supports educational programs aimed at accompanying children in their learning. Through its work, the Foundation increases access to education for disadvantaged children.

- Environmental initiatives

The Foundation works to protect and restore the biodiversity of our island, mainly in the northern region.

The Foundation's purpose is as follows:

- the management and allocation of PDS and CSR funds from Evaco Group
- the implementation of projects that meet the needs of the community identified through the Social Impact Assessment.

Since 2023, the Evaco Foundation aligns with the goals established by the United Nations. Our roadmap aims to have a significant impact on our Core and auxiliary sustainable development goals (SDGs).
